

How do you remember spellings?

Need some ideas? Why not try these...

- Look at the word, cover it, then try to write it. Check to see if you were correct.
- Look at the *shape* of the word. Make the word in

to a

CLOCK

shape 'picture'.

- Look for any familiar letter patterns.
- Make up a rhyme (mnemonic) to help you remember it, e.g. Big Elephants Can Always Understand Small Elephants.
- Ask someone to read (dictate) the words to you while you write them down. They could dictate sentences containing the word for you to write too.
